SOUČASNÁ KARDIOLOGIE MANUÁL PRO PRAXI

Jiří Bonaventura

Kapesní manuál **SOUČASNÁ KARDIOLOGIE** nabízí souhrnně zpracované poznatky z rozsáhlého a dynamicky se rozvíjejícího lékařského oboru. Kniha proto záměrně nerozebírá historii a patofyziologii jednotlivých kardiologických onemocnění, ale naopak stručně a za použití minimálního počtu slov předává čtenáři co největší objem současných informací z oborové praxe. Snahou autora bylo vytvořit publikaci aktuální, zahrnující recentní poznatky ze studií i publikovaných guidelines. Zhuštný text je pro větší přehlednost a snadné vyhledávání informací doplněn tabulkami. Kniha je určena nejen nemocničním i ambulantním kardiologům, ale též praktickým lékařům a lékařům v příbuzných oborech, kteří mají o současnou kardiologii zájem.

Praha: Galén, 2023, 325 s.
